

Cloud Botanist AI

INFRASTRUCTURE-NATIVE PAYMENT PLATFORM FOR
CLOUD & COMPUTE SPEND.

Leonid Vasilyev

Masha Vasilieva

About founders

Leonid Vasilyev

15+ years of experience in building and scaling Cloud Infrastructure. Strong engineering and management background. Ex-AWS, Dropbox, Datadog.

Masha Vasilieva

Launching payments solutions for Square/Cash App customers across the world. Years of experience in customer success, risk analytics and partnership development (clients include Visa, Mastercard, American Express).

Total Adressable Market

\$723.4B

Public cloud end-user
spending, 2025 (+21.5% YoY)

Source: [Gartner, Nov 2024](#)

\$287B

Worldwide IaaS spending, 2026
(+29.3% YoY)

Source: [Gartner, Jul 2026](#)

\$822B

Data center systems spending,
2026 (+62.5% YoY)

Source: [Gartner, Jul 2026](#)

Outdated Payment Workflows = lost opportunity and operational risks

Brex: An attempted transaction for \$21,067.57 at Oracle Corporation on the card ending in 4270 was declined because it exceeds the Oracle OCI Cloud spend limit's available balance of \$4,884.37.

01

Spend data is reconciled weeks after the compute surge

02

Zero visibility into unit economics or GPU utilization

03

Lack of transparency into real-time spend

Competitors: building generic solutions for generic market

Powered by AI Logic Layer

GPU BURN	01
UNIT ECONOMICS	02
FINOPS	03

Any custom spending logic can be created

One platform, two sides

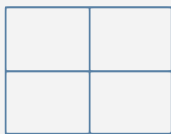

For AI-native startups

- + Programmable Payment Card
- + Marketplace
- + Full Spend Visibility
- + Agents Sandbox

For cloud providers

- + Growth Patterns
- + Customer Acquisition
- + Risk Mitigation

CLOUD BOTANIST

PROGRAMMABLE CARD

..... 2026

COMPUTE SPEND

rule: GPU burn
≤ budget

We're looking for design partners!

We'd like to work with a rapidly growing AI-Native, Cloud-based, SaaS business. You already found your product-market-fit (PMF) and entered the scaling phase. You invested in one of the hyperscalers: AWS, Google GCP, Microsoft Azure or Oracle OCI to build infrastructure.

Your cloud bill is \$20,000+/month or expected to grow rapidly soon.

Let's talk
